# EFFLORESCENCE

NEW 2024 COLLECTION

## 2024 TRENDS

### THE INSPIRATION

*"As the sun colors flowers, so does art colors life."*  
John Lubbock

Nicole Colet 2024 Collection is inspired by the elegance and romanticism of botanical gardens.

The blossoming of the flowers, light effects on colorful plants and the freshness of nature were the key inspirational elements to develop the new Colet Collection.

This springtime atmosphere is represented by colored laces and 3D elements that become the main focus of the dresses.

The styles acquire a new lightness and modernity through the study of guipure laces and tulle 3D effects without renouncing to the romantic italian taste.

### COLORED TOUCH

### IN BLOOM SHAPES

### YOUNG FRESH DETAILS

# NICOLE COLET

## NEW 2024 COLLECTION

### COLORED TOUCH

The harmony and lightness of colors inspired by nature is one of the main inspirational elements of Colet Collection. The classical romantic shape of the ballgown dress, the modernity of flow dresses with slits obtain a new strenght through the italian knowledge of using colorful laces and botanical prints patterns.

CALANDRA

LILYROSE

ZALIE

JELENA

### IN BLOOM SHAPES

Like a flower blossoms during springtime so petals and laces come out of the bridal dresses. Guipure daisies that emphasize the necklines, tulle leaves in different light pink shades and graphic laces with organza elements give a romantic three dimensional effect to the bride. While full floral patterns and full sequined laces remind the long expanse of flowers in botanical gardens.

# NICOLE COLET

## NEW 2024 COLLECTION

### YOUNG FRESH DETAILS

A playful touch is given to the collection by the use of modern details:  
Tiny and big bows decorate the dresses bodices experimenting the freshness and modernity of Italian design.
